

**Port / Place (Location) Code Amendment
for Electronic Cargo Manifest (“EMAN”)**

Please be informed that the latest Port / Place (Location) Code amendments required by the Government for EMAN would take effect from 1 April 2008. Tradelink will shortly deliver a “Smart Upgrade Directive” to your LogiNet Standard software . You do not have to do anything with the upgrade for the time being. The first time you login your LogiNet Standard software on or after 1 April 2008, the upgrade will be executed automatically. Customers using import flat file for EMAN submissions can update the code settings to the latest code amendments for their own systems if necessary.

For more details of the Port / Place (Location) Code Amendment, please refer to the Government Electronic Trading Services (“GETS”) website at http://www.cedb.gov.hk/citb/ehhtml/pdf/gets/GETS_Code_Table.pdf (item 29 on page 96-99). You can also refer to <http://www.unece.org/etrades/download/downindex.htm> to get the latest version of United Nations (UN) Codes.

Furthermore, through the same upgrade patch, we have added two new features to the LogiNet Standard software:

- 1) "As Per Attached List" will be printed on the top right corner of the Supporting Document Cover Sheet to facilitate paper submissions of Licenses / Notifications or Supporting Document to the Trade and Industry Department.
- 2) Option to generate Dutiable Commodities Permit Report showing all Dutiable Commodities Permits with the same EMAN UMR.

For enquiries, please call the Trade Classification Section of the Census and Statistics Department at 2877 1818 or Tradelink Customer Service Hotline at 2917 8866.
