

Tradelink presents e-payment Solutions at “Visa International Government Services Conference 2007”

Tradelink Electronic Commerce Limited (“Tradelink”) participated in the “Visa International Government Services Conference 2007” on 7 – 8 November, 2007 at Dubai, United Arab Emirates. This annual international forum aims at providing the opportunities for governments and business sectors around the world to showcase electronic payment solution in conjunction with business-to-government and business-to-business electronic applications.

At the conference, Justin Yue, Chief Executive Officer of Tradelink introduced the Hong Kong Government Electronic Trading Services and in particular its latest offering of Digital Trade and Transportation Electronic Services to serve the supply chain community. He also shared the Company’s insights on the benefits of e-payment solutions to end-users. He said, “In all these, a good electronic payment solution is a powerful engine to drive the adoption of e-commerce worldwide. So we are looking for a credit card solution to allow DTTN customers worldwide to pay for their DTTN charges. At the same time, we want to see if this solution can be extended for an electronic payment as between DTTN customers.”
