Notes:

1. Basis of preparation

The interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities (the “Listing Rules”) on the Stock Exchange of Hong Kong Limited (“the SEHK”). The interim financial report also complies with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

The accounting policies adopted in preparing the interim financial report are consistent with those used in preparing the Group’s annual financial statements for the year ended 31 December 2008, except for the changes set out in *Note 2*. The interim financial report should be read in conjunction with the annual financial statements for the year ended 31 December 2008.

The financial report for the six-month period ended 30 June 2009 have been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA.

2. Changes in accounting policies

The HKICPA has issued one new Hong Kong Financial Reporting Standard (“HKFRS”), a number of amendments to HKFRSs and new interpretations that are first effective for the current accounting period of the Group and the Company.

The key impact of these developments on the interim financial report is as follows:

- HKFRS 8 requires segment disclosures to be based on the way that the Group’s chief operation decision maker regards and manages the Group. The adoption of HKFRS 8 has resulted in the basis presentation of segment information in a manner that is more consistent with internal reporting provided to the Group’s most senior executive management, and has resulted in the Group continuous to be classified as one segment (see *Note 4*).
- As a result of the adoption of HKAS 1 (revised 2007), details of changes in equity during the period arising from transactions with equity shareholders in their capacity as such have been presented separately from all other income and expenses in a revised consolidated statement of changes in equity. All other items of income and expense are presented in the consolidated income statement, if they are recognised as part of profit or loss for the period, or otherwise in a new primary statement, the consolidated statement of comprehensive income. This change in presentation has no effect on reported profit or loss, total income and expense or net assets for any period presented.

3. Turnover

The principal business of the Group is the provision of front-end Government Electronic Trading Services (“GETS”) for processing certain official trade-related documents. Turnover represents the value of services provided and goods supplied to customers. The amount of each significant category of revenue recognised in turnover during the period is as follows:

	Six months ended 30 June	
	2009	2008
	(HK\$’000)	(HK\$’000)
Transaction and handling fees	81,670	102,651
Annual subscription and registration fees	8,443	8,726
Others	2,722	3,319
	92,835	114,696

4. Segment reporting

In prior periods, segment information reported externally under HKAS 14, Segmental Reporting, was analysed on the basis of the types of services provided by the Group, and it had been concluded that the Group had been operating principally in a single business and geographical segment. As explained in Note 2, HKFRS 8 requires disclosures of operating segment information based on information reported to the Group's senior management for the purposes of resource allocation and performance assessment. From the perspective of the Group's senior management, it is considered that assessment of operating performance is focused on the Group as a whole, as all of the Group's activities are considered to be primarily dependant on the volume of trading activities in Hong Kong and are highly integrated and interdependent on each other. Resources are allocated based on what is beneficial for the Group rather than any specific department. Therefore, management considers the Group continuous to have one operating segment under the requirement of HKFRS 8.

5. Profit before taxation

Profit before taxation is arrived at after charging:

	Six months ended 30 June	
	2009	2008
	(HK\$'000)	(HK\$'000)
Staff costs, including directors' remuneration:		
Contributions to defined contribution retirement plan	1,246	1,137

6. Taxation

	Six months ended 30 June	
	2009	2008
	(HK\$'000)	(HK\$'000)
Provision for Profits Tax for the period		
- Hong Kong	4,792	8,342
- overseas	68	-
	4,860	8,342
Deferred taxation	154	(3)
	5,014	8,339

The provision for Hong Kong Profits Tax for 2009 is calculated at 16.5% (2008:16.5%) of the estimated assessable profits for the period.

7. Dividend

	Six months ended 30 June	
	2009	2007
	(HK\$'000)	(HK\$'000)
Interim dividend declared and paid after the interim period of HK cents 1.752 per share (2008: HK cents 3.61 per share)	13,636	28,097

8. Earnings per share

The calculation of basic earnings per share is based on the profit attributable to equity shareholders of the Company of HK\$17,799,000 (2008: HK\$36,699,000) and the weighted average of ordinary shares in issue during the period less shares held for share award scheme of 775,775,000 (2008: weighted average of shares in issue during the period of 778,276,000 shares).

The calculation of diluted earnings per share is based on the profit attributable to equity shareholders of the Company of HK\$17,799,000 (2008: HK\$36,699,000) and the weighted average number of 778,306,000 ordinary shares (2008: 778,662,000 shares), after adjusting for the effect of the potential dilution from ordinary shares issuable under the Company's share options schemes and share award scheme.

9. Acquisition of a subsidiary and minority interests

(a) Acquisition of a subsidiary

On 26 March 2009, the Company purchased 58,740,000 ordinary shares in Digital Trade and Transportation Network Limited ("DTTNC"), previously an associate in which the Company already holds 56.57% equity interest prior to the acquisition, for a cash consideration of HK\$22,791,000. These newly acquired 58,740,000 ordinary shares represented the remaining 43.43% of all the issued and paid-up capital in DTTNC, and as such DTTNC became a wholly-owned subsidiary of the Company.

A goodwill of HK\$9,976,000 is recognised, which is attributable mainly to the technical expertise, intelligence property, and the synergies expected to be achieved from integrating DTTNC into the Group's existing business and customer base of DTTNC. The above analysis is provisional and amendments may be made to the goodwill amount in the period up to 12 months from the date of acquisition.

(b) Acquisition of minority interest

In June 2009 the Group acquired an additional 49% interest in 天津貿易通科技有限公司 for RMB245,000 in cash, increasing its ownership from 51% to 100%.

10. Interest in associates

In December 2008, the Company acquired a 20% equity capital in Guangdong Nanfang Haiian Science & Technology Service Company Limited (“Nanfang”) at a consideration of RMB20 million. Goodwill of HK\$17,742,000 has been recognised on the acquisition of 20% interest in Nanfang based on the initial accounting for the acquisition. Amendments may be made to the goodwill amount in the period up to 12 months from the date of acquisition. Management is in the process of finalising the initial accounting for the acquisition; as such no amendment was made as to the carrying amount of the goodwill in respect of Nanfang.

During the period, Nanfang declared a dividend of RMB605,000 to the Company in respect of the profit for the year ended 31 December 2008.

There were no other changes in the particulars of associates during the period other than those mentioned above.

11. Trade receivables

Credit terms granted by the Group to customers generally range from one week to one month. An ageing analysis of trade receivables, based on the invoice date is as follows:

	As at 30 June 2009 (HK\$'000)	As at 31 December 2008 (HK\$'000)
Current	17,172	17,838
1 to 3 months overdue	373	482
More than 3 months overdue but less than 12 months overdue	283	81
	17,828	18,401

All the above balances are expected to be received within one year and they are generally covered by customer deposits received from customers.

12. Other financial assets

The Group has purchased corporate note issued by Kowloon–Canton Railway Corporation (“KCRC”), which is listed on the Stock Exchange of Hong Kong Limited. The KCRC note is denominated in USD, with nominal amount of US\$9,600,000, term of 10 years ending in 2019, and coupon interest of 5.125% per annum. The corporate note was acquired at fair value of HK\$76,140,000. The Company designated the instrument as available-for-sale securities with fair value changes of HK\$1,002,000 recognised in equity.

13. Trade creditors, accounts payable and other payables

	As at 30 June 2009 (HK\$'000)	As at 31 December 2008 (HK\$'000)
Trade creditors (due on demand or within one month)	8,898	9,190
Customer deposits received	169,288	171,603
Accrued charges and other payables	37,862	39,253
	216,048	220,046

Customer deposits received are refundable on demand.

14. Capital and share award scheme

(a) Share capital

	Number of shares (in ' 000)	Amounts (HK\$'000)
Authorised:		
Ordinary shares of HK\$0.20 (2008: HK\$0.20) each		
As at 31 December 2008 and 30 June 2009	1,250,000	250,000
Issued and fully paid:		
As at 1 January 2008	778,210	155,642
Shares issued under share option scheme	96	19
As at 31 December 2008 / 1 January 2009	778,306	155,661
Shares issued under share option scheme	-	-
As at 30 June 2009	778,306	155,661

(b) Shares held for share award scheme

On 16 March 2009, the Board adopted a Share Award Scheme ("the Scheme") as a means of rewarding and retaining employees at the grade of assistant manager or above with the Group.

The shares awarded under the Scheme are acquired from the open market. The net consideration paid, including any directly attributable incremental costs, is presented as "Shares held for Share Award Scheme" and deducted from total equity. Equity settled share-based payment transactions under the Scheme follow the accounting policies of equity settled share-based payments as disclosed in the Group's annual financial statements for the year ended 31 December 2008.

During the period the Company acquired 5,432,000 Tradelink shares (30 June 2008: Nil) through purchases from the open market for the Share Award Scheme. The total amount paid to acquire the shares during the period was HK\$4,004,000 (six months ended 30 June 2008: Nil).

In accordance with the Scheme rules, awardees are not entitled to dividend declared prior to the award date. The amount of 2008 final dividend declared prior to the award date at the amount of HK\$290,000 after netting off the relevant handling fees was charged against the costs of shares held for share award scheme.

EXTRACT FROM THE INDEPENDENT REVIEW REPORT

The Group's interim financial report for the six-month period ended 30 June 2009 has been reviewed by the Group's auditors. The independent interim review report contained a qualified conclusion. The following is the extract from the independent review report:

“Basis for qualified conclusion

In respect of the interim financial report for the six-month period ended 30 June 2008, we qualified our review conclusion in our review report dated 2 September 2008 on the grounds of non-compliance with Hong Kong Accounting Standard 36 (HKAS 36), *Impairment of assets*, issued by the Hong Kong Institute of Certified Public Accountants. Specifically, although there were indications of possible impairment in the carrying value of long lived assets of an associate as at 30 June 2008, the recoverable amount of such long lived assets as at that date had not been estimated. Any impairment loss recognised against the carrying value of such long lived assets as at 30 June 2008 would have reduced the group's share of the results of the associate and hence the group's profit for the six-month period ended 30 June 2008. These income statement amounts are included uncorrected as comparative amounts in the interim financial report for the six months ended 30 June 2009. However, this issue has no impact on the comparative amounts in respect of the balance sheet, or the amounts reported in respect of the group's profit for the six month period ended 30 June 2009, as the matter was properly resolved in the preparation of the annual financial statements for the year ended 31 December 2008.

Qualified conclusion

Based on our review, with the exception of the matter relating to the comparative amounts for the consolidated income statement in respect of the six-month period ended 30 June 2008 described in the preceding paragraph, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2009 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.”

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Highlights of the Group's business performance during the review period are:

Tradelink

- In the first half of 2009, Tradelink's core business of providing GETS services experienced a decline of 18% compared to the same period in 2008, tracking by and large the economic downturn that Hong Kong experienced as a whole. Transaction volume picked up significantly in June 2009, which together with other economic indicators, would seem to suggest that the worst is over.

DTTNC

- In March 2009, Tradelink completed the buyout of DTTNC's other shareholders, making DTTNC a wholly-owned subsidiary of Tradelink. Since then, DTTNC has undergone a series of restructuring to remove duplications between Tradelink and DTTNC thereby resulting in reduction of annual operation costs of more than HK\$10 million.
- With regard to the local market for Digital Trade and Transportation Network ("DTTN"), DTTNC continues to adopt the hub-and-spoke approach in recruiting and activating hub customers and their trading partners with value added applications where appropriate. Notwithstanding the slowing down of the global economy, DTTN business has been able to sustain a steady growth in the first half of 2009. The total number of transactions processed in the first half of 2009 grew by 25% compared to the same period last year.
- In respect of the China market, the Group is working with China International Electronic Commerce Centre ("CIECC"), an organisation under the Ministry of Commerce to provide a simple tool on CIECC's business portal for DTTN document creation and exchange between buyers and sellers after business matching on the portal. With this strategic partnership in China, it is believed that the project would provide a boost to increase the awareness and promote the usage of DTTN in China.
- On the solution front, the Group has developed a "DTTN gateway" solution which is a basic and low cost platform that can readily be deployed and operated locally. Through a link to the main DTTN platform in Hong Kong, the DTTN gateway can deliver the full DTTN functions and services to local enterprises and organizations. Discussions with several parties in China, including municipal governments are currently underway for the deployment of such DTTN solutions.

Digi-Sign

- Digi-Sign Certification Services Limited ("Digi-Sign") continued to make steady progress. One area where Digi-Sign stands to acquire additional market share is in the provision of security solutions for online transactions for the financial services sector.

Preparing for the Future

- In May 2009, Tradelink signed a Memorandum of Understanding with the Management Committee of Changsha Jinxia Economic Development Zone to explore the possibility of joint development of Hunan Jinxia Logistics Information Centre, which aims at promoting modern logistics development in the Hunan Region through the sharing of experience and adoption of DTTN. It is believed that the business co-operation will add value to the Group's business development in China and lay a solid foundation for the provision of diversified services to its customers in China.
- As for investment projects, in May 2009 Tradelink entered into a Memorandum of Understanding with Beijing Changdian Zhiyuan Guangdianzi Company with the intention of Tradelink investing RMB 50 million (around 25% shareholding) in this company which provides data centres, disaster recovery and business continuity services. As economy in the Mainland continues to grow, it is believed that there will be an increasing demand for such IT support services. Development of the phase 1 of the project will complete later this year.

- Another investment project which Tradelink is working on is for a 10% shareholding in a joint venture logistics park operation in the Pinggu area of Beijing. The project involves the setting up of an IT infrastructure to support the operations of the logistics park. With its experience, Tradelink is well positioned to provide the IT solution for the joint venture.

FINANCIAL REVIEW

On 26 March 2009, the Company completed the acquisition of 43.43% of issued share capital of DTTNCo from the other shareholders at a total consideration of HK\$22.8 million, making DTTNCo a wholly-owned subsidiary of the Company. The Company adopted the equity accounting method to account for DTTNCo's pre-acquisition loss and shared the loss of DTTNCo. The post-acquisition financial results of DTTNCo were consolidated into the Group's financial statements.

Turnover for the six months ended 30 June 2009 was HK\$92.8 million, a decrease of 19.1 % over the same period in 2008. The decrease was attributed by the decline in the GETS services due to the slowdown of the global demand. Operating expenses (excluding depreciation) were HK\$62.5 million for the first half of 2009 as compared to HK\$60.3 million for the same period in 2008, increased by HK\$2.2 million due to the consolidation of the operating costs of DTTNCo in the Group's financial statement.

Depreciation charges for the first six months of 2009 amounted to HK\$7.6 million, representing HK\$2.7 million higher than the amount charged at HK\$4.9 million for the same period last year due to the consolidation of depreciation charge of DTTNCo.

For the six months ended 30 June 2009, profit from operations was HK\$25.3 million, a decrease of 54.9% as compared to HK\$56.1 million for the same period in 2008.

During the review period, the share of net results of associates was HK\$2.6 million of which the share of DTTNCo's pre-acquisition loss was \$2.8 million and the share of profit of an associate was \$0.2 million. The share of results of associates for the same period in 2008 was HK\$11.1 million, decreased by HK\$8.5 million.

The unaudited profit for the six months ended 30 June 2009 was HK\$17.7 million, a decrease of HK\$19.0 million over the profit for the same period in 2008. Profit attributable to equity shareholders of the Company for the six months ended 2009 amounted to HK\$17.8 million (2008: HK\$36.7 million).

Basic earnings per ordinary share for the six months of 2009 decreased by 51.5% to HK cents 2.29 as compared to HK cents 4.72 for the same period last year.

LIQUIDITY AND FINANCIAL POSITION

As at 30 June 2009, the Group had total cash and bank deposits of HK\$315.4 million (31 December 2008: HK\$439.5 million). Total assets and net assets of the Group amounted to HK\$531.1 million (31 December 2008: HK\$562.2 million) and HK\$309.5 million (31 December 2008: HK\$336.8 million) respectively.

As at 30 June 2009, the Group had no borrowings (31 December 2008: Nil).

CAPITAL AND RESERVES
